PART III – DETERMINATION OF SIGNIFICANCE (To Be Completed by Agency)

Instructions: For each adverse effect identified above, determine whether it is substantial, large, important or otherwise significant. Each effect should be assessed in connection with its:

- a. Setting (i.e. urban or rural)
- b. Probability of Occurring
- c. Duration
- d. Irreversibility
- e. Geographic Scope
- f. Magnitude

If necessary, add attachments or reference supporting materials. Ensure that explanations contain enough detail to show that all relevant adverse impacts have been identified and adequately addressed. If question D of part II was checked yes, the determination and significance must evaluate the potential impact of the proposed action on the environmental characteristics of the CEA.

- Check this if you have identified one or more potentially large or significant adverse impacts which MAY occur. Then proceed directly to the FULL EAF and/or prepare a positive declaration
- Check this if you have determined, based on the information and analysis above and any supporting documentation, that the proposed action WILL NOT result in any significant adverse environmental impacts AND provide on attachments as necessary the reasons supporting this determination.

PLEASE MAKE SPECIAL NOTE OF THE FOLLOWING ZONING SECTION 130-10.6-1 CONCERNING EXPIRATION OF A VARIANCE

Section 130-10.6-1 Expiration:

Unless construction is commenced and diligently pursued within six (6) months of the date granting of the variance, such variance shall become null and void.

It is important that you request from the Zoning Board an additional amount of time if felt you will need more regarding actual construction start. **AN OPEN-ENDED REQUEST WILL NOT BE CONSIDERED.**

You may make this request in your application or in person on the date of your variance hearing and the decision must be made a condition of approval and part of the record.

Your failure to request this important condition of approval will cause your approval to become null and void after six months, if construction is not commenced. You will be denied a building permit and will need to re-apply for a new variance.

SIMPLY OBTAINING A BUILDING PERMIT DOES NOT CONSTITUTE COMPLIANCE WITH THIS SECTION OF THE ZONING CODE.

By signing, I state that I have read and fully understood all the above.

USE VARIANCE

1. The strict application of the literal terms of this chapter would produce “unnecessary hardship” to the applicant. Unnecessary hardship will be deemed to exist where the applicant has clearly demonstrated each of the following points:
 - I. A reasonable return cannot be realized through permitted uses. The applicant shall specifically prove, through at least two independent sources of professional testimony, that no use permitted by the Zoning Regulations applications to that district would yield a reasonable return. The evidence must be specific and address the amount paid for the property, present value, maintenance expenses, taxes, mortgages and encumbrances, income from the land in question and other facts relevant to the circumstances of the case. Failure to sell land for a permitted purpose is evidence it will not bring a reasonable return if used for such purposes if the owner has made an active effort to sell. Mere financial loss to the individual owner or inability to achieve the most profitable use of a property shall-not be sufficient justification for a variance.
 - II. The hardship is not self-created.
 - III. The use, if granted, would not alter the essential character of the district or be a substantial detainment to adjoining properties.
 - IV. The variance is not requested for seasons of mere inconvenience or aesthetic taste.
 - V. The variance would be consistent with the spirit of this chapter and the Village of Woodridge comprehensive Zoning Plan. No variance shall be granted which would have the effect of re-districting the area and any use granted shall be only for the intent of the district in question.
2. In reviewing a request for a use variance, the Board must consider the effects of adjacent similar uses, traffic, obsolete improvements, the existence of unusual natural resources and governmental rulings unrelated to zoning.
3. The burden of proof with a use variance, nonetheless, shall be wholly with the applicant.
4. In all cases where the Zoning Board of Appeals grants a variance from the strict application of the requirements of this chapter, it shall be the duty of such Zoning Board to attach conditions and safeguards, or time limits, as may be required in order that the results of its action may as nearly as possible be in accordance with the spirit and intent of this chapter.
